Shewrapara, Dhaka | NotToday0007

## Profile Summary

Curious and hands-on SQA Engineer who enjoys transforming manual testing into smart automation. I have built QA tools such as AI-driven test case generators, ClickUp-integrated bug reporters, and Playwright & API scripts for CRM validation, along with n8n-based automation workflows. With a background in PHP, Laravel, and JavaScript, I combine developer logic with strong attention to detail in testing. I work closely with 350+ telesales agents, conducting feature briefings and gathering real user feedback to improve system usability and performance. I am continuously learning and focused on making testing easier, more effective, and less manual, while also improving my communication and collaboration skills.

## Professional Skill

- **Testing:** Manual, Functional, Regression, Smoke, Sanity, Test Cases, Test Scenarios, Defect Tracking
- **Automation:** Playwright, Appium, API Automation, Newman
- **API & Database:** Postman, REST API, SQL, MySQL
- **Performance:** JMeter, K6, Load Testing
- **Tools:** Jira, ClickUp, Git, GitHub, Allure Reports
- **Programming/Web:** C/C++, JavaScript, PHP, Laravel, HTML, CSS
- **Methodologies:** SDLC, STLC, Agile/Scrum
- **Systems & Platforms:** CRM, CMS, Web & Mobile Applications, E-commerce, Calling Solutions

## Work Experience

### Junior SQA Engineer | Shikho Technologies Bangladesh Ltd.

**April 2025 - Present**

- Test the core CRM system that drives the company's main business revenue; write and maintain test cases for new features.
- Test the calling solution — inbound, outbound, autodial, and IVR — built on WebRTC and Asterisk.
- Conduct feature briefings for 350+ telesales agents and ensure proper understanding and taking feedback of new features.

### Intern as SQA Engineer | Shikho Technologies Bangladesh Ltd.

**Jan 2025 - April 2025**

- Assigned to oversee the organization's CMS, CRM, and mobile application software, focusing on ensuring their functionality and quality.
- Worked on identifying bugs, writing test cases, and reporting issues to developers for resolution.
- Learned automation techniques to improve testing efficiency and streamline the QA process.

### Intern as SQA Engineer | Softcell Solution Ltd.

**May 2024 - Aug 2024**

- Tested a PHP/Laravel web project under senior QA guidance, learning core SQA fundamentals.
- Supported implementation and reported testing status to the team.

## Projects

- **AI Test Case Generator** (Discord + ClickUp + AI): Automated test case generation from ClickUp PRDs using APIs and AI, reducing test case writing time by 50%.
- **AI Bug Reporter** (Discord → ClickUp): Automated bug report creation with titles, steps, and screenshots, improving QA-to-development reporting.
- **Test Data Generator** (Playwright + API Script): Automated test data generation for Leads, Dashboard, Users, Events, and Templates, reducing setup time by 60%.
- **RTP & DNP Trigger Automation** (n8n + API Script): Automated test-data setup for scheduled reporting and cron-job testing.
- **API Automation Suite** (Postman + Newman + Allure): Automated API validation with assertions and reporting to support release verification.
- **Playwright Automation** (Functional + UI Testing): Developed automated regression suites for CRM modules, reducing regression testing time by 50%.
- **Calling Solution QA & Automation** (Inbound, Outbound, Autodial): Tested inbound, outbound, and autodial features; performed load testing with 350+ agents and automated call-flow validation, reducing regression testing time by 70%.

## Education

Bachelor of Computer Science and Engineering | Green University of Bangladesh

- CGPA: 3.28 out of 4.00

Higher Secondary Certificate | Kurigram Govt. College

- GPA: 4.50 out of 5.00

## Certification and Achievements

Web Development with PHP & Laravel | Ostad

- PHP, Laravel, MVC Architecture, Database Management

SQA: Manual & Automated Testing | Ostad

- Manual Testing, Automation Testing, Test Cases, Bug Reporting

## Research Experience

- **Title: ADNet: An Advanced Artificial Neural Network for Early Diagnosis of Alzheimer's Disease**
  - Undergraduate Thesis - Presented and Published at IEEE Conference
  - Developed and evaluated CNN-based deep learning models for Alzheimer's disease classification.
